MANTA

MANTA

The **MANTA** is a reusable, electronic seal that generates a unique seal number and records the time and date of each opening/closing. The previous 100 events are captured within the unit and can be accessed manually. As an option, the event memory can be downloaded using the infrared scanner and captured in a secure report. The data can be merged with fleet management software or downloaded into your own customized report.

Features:

- * Simplifies security procedures
- * Deters collusion
- * Records date and time of each opening/closing
- * Generates a random 4 digit seal number
- * Illuminated LED display
- * Durable weather resistant design- ISO IP69K
- * Self-powered, 5 year lifespan
- * Includes protective flap

Benefits vs. one-time-use seals:

- * Eliminates cost of placing multiple orders
- * Eliminates cost of storing seals
- * Eliminates cost of distributing seals
- * Eliminates cost associated with disposal of waste (boxes, packaging, plastic, etc.)

Customization:

- Remote sensor version
- Radio frequency interface
- Customized software

Applications:

- Trailer doors
- Bulk tankers
- Railroad cars

Packing:

- 1 seal per box

Box Dimensions:

8.75" X 6.5" X 3.75"

Gross Weight:

3.3 lbs.
